

Advanced
Design &
Manufacturing
Expo

2021 Post-Show Snapshot

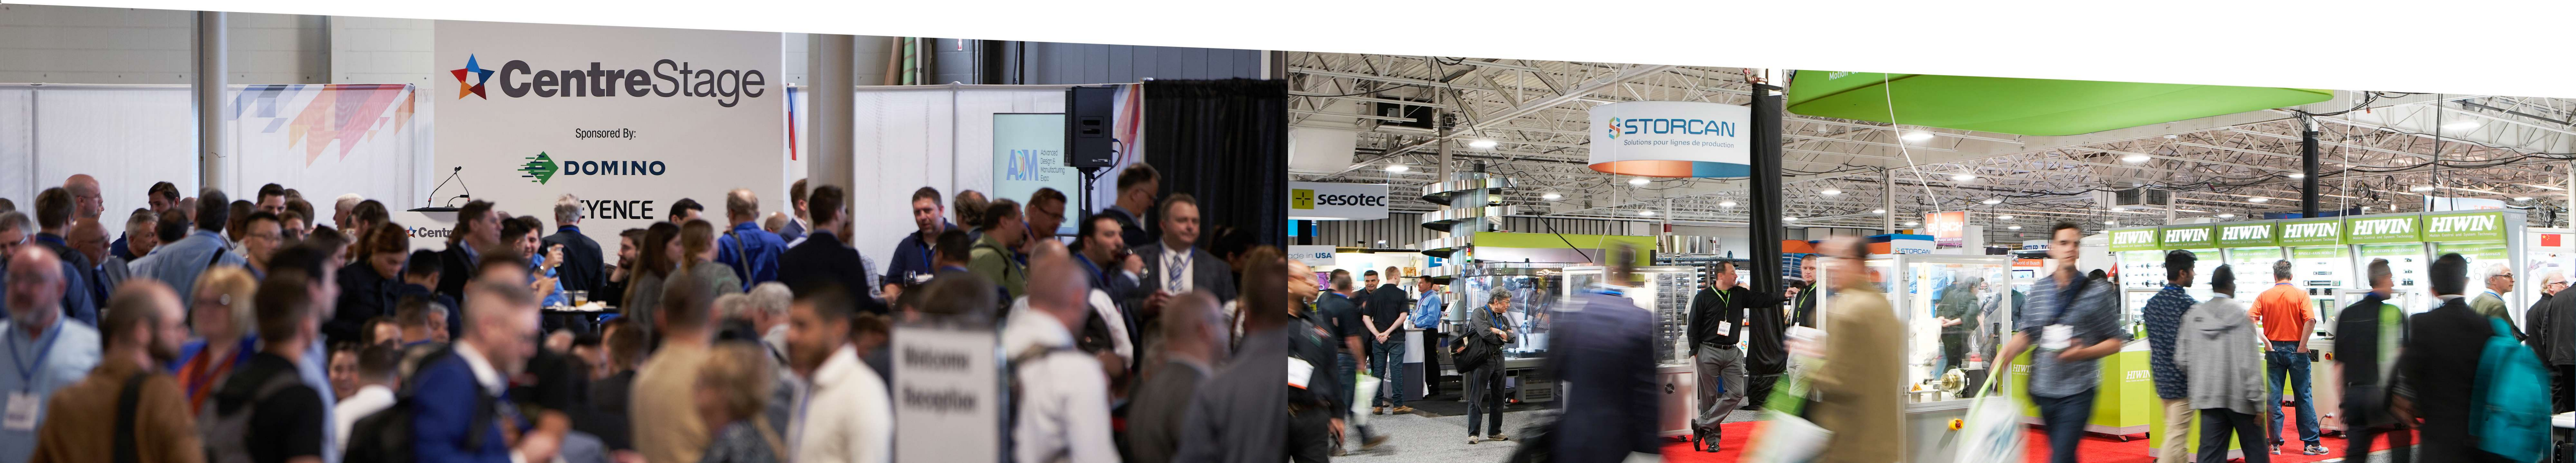

November 9 – 11, 2021

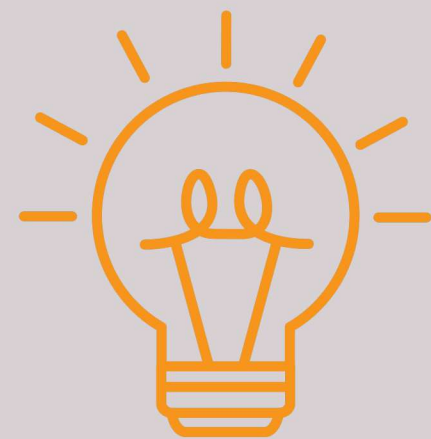

1 Floor. 5 Shows. Countless Opportunities

Advanced Design & Manufacturing Toronto brings together five advanced manufacturing brands — Design & Manufacturing, Automation Technology Expo, PACKEX, PLAST-EX, and Powder & Bulk Solids.

This all-in-one, industry-wide event lets you explore the latest trends and technologies shaping the future in advanced design and manufacturing across automation, robotics, energy efficiency, packaging, plastics, processing and more to accelerate your business goals and grow your career.

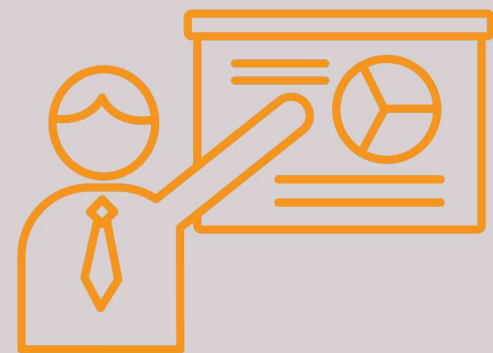

2021 Show Features

Free to Attend Expo

ADM Toronto provided attendees the chance to find solutions to their application needs, get a look at the latest technologies, and connect with their peers. Some of the great features included:

- A 100+ exhibitor trade show
- New Product Showcases
- Centre Stage
- Networking Receptions

Education

Delegates took a deep dive into our free education content program consisting of keynotes, technical sessions, and fireside chats, with speakers from industry leaders such as:

- PAC Global
- NGen
- Canadian Manufacturers and Exporters
- Siemens
- Handtmann

Job Functions
